Publishing Office

Pergamon Press Ltd, Pergamon House, Bampfylde Street, Exeter EX1 2AH, England (*Tel.* Exeter (0392) 51558; *Fax* (0392) 425370)

Subscription and Advertising Offices

North America—Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A. *Rest of the World*—Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, England (*Tel.* Oxford (0865) 794141)

Subscription Rates

Annual institutional subscription rate (1993): £665.00 (U.S.$1064.00). Sterling prices are definitive. U.S. dollar prices are quoted for convenience only, and are subject to exchange rate fluctuation. Prices include postage and insurance and are subject to change without notice.

Back Issues

Back issues of all previously published volumes, in both hard copy and on microform are available direct from Pergamon Press offices.

Published monthly. Copyright © 1993 Pergamon Press Ltd

Second class postage paid at RAHWAY NJ. Postmaster send address corrections to *Neuropharmacology*, Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A.

Cover—In the foreground, a molecular model of Conotoxin MVIIA from Quanta 3.2 by Dr Trevor Howe (Eli Lilly), coloured on individual atomic charge using CHARMm 22. In the background from Dr A. Fox's laboratory (University of Chicago) are single channel calcium currents from an adrenal medullary cell in control conditions on the left, and in the presence of BayK8644 on the right.

CONTENTS OF VOLUME 31

NUMBER 1

J. A. Apud, D. R. Grayson, E. De Erausquin and E. Costa	Pharmacological characterization of regulation of phosphoinositide metabolism by recombinant 5-HT_2 receptors of the rat	1
S. E. Gartside, P. J. Cowen and T. Sharp	Effect of 5-hydroxy-L-tryptophan on the release of 5-HT in rat hypothalamus *in vivo* as measured by microdialysis	9
T. J. Feuerstein, A. Lupp and G. Hertting	Quantitative evaluation of the autoinhibitory feedback of release of 5-HT in the caudate nucleus of the rabbit where an endogenous tone on α_2-adrenoceptors does not exist	15
A. Lund, Norma Mjellem-Joly and K. Hole	Desipramine, administered chronically, influences 5-hydroxytryptamine$_{1A}$-receptors, as measured by behavioural tests and receptor binding in rats	25
M. J. Krieman, D. M. Hershock, I. J. Greenberg and W. H. Vogel	Effects of adinazolam on plasma catecholamine, heart rate and blood pressure responses in stressed and non-stressed rats	33
I. S. Ebenezer and A. K. Pringle	The effect of systemic administration of baclofen on food intake in rats	39
B. D. Goldstein and N. A. A. Ibrahim	The role of GABA and glycine in the physostigmine-induced alterations of spinal cord reflexes	43
K. Miyamoto, K. Wakita, T. Okuda, K. Fuji and K. Suekane	Suppressant effects of midazolam on responses of spinal dorsal horn neurones in rabbits	49
P. K. Hitchcott, A. Zharkovsky and Sandra E. File	Concurrent treatment with verapamil prevents diazepam withdrawal-induced anxiety, in the absence of altered calcium flux in cortical synaptosomes	55
Y. Ishii and T. Sumi	Evaluation of a cholinomimetic drug, 9-amino-2,3,5,6,7,8-hexahydro-1H-cyclopenta [b] quinoline (NIK-247), as an enhancer of endogenous efflux of acetylcholine from brain slices	61
V. Daugé, M. Derrien, J. C. Blanchard and B. P. Roques	The selective CCK-B agonist, BC 264 injected in the antero-lateral part of the nucleus accumbens, reduces the spontaneous alternation behaviour of rats	67
Martha Kim and Paula C. Bickford	Electrophysiological effects of phencyclidine and the sigma agonist ditolylguanidine in the cerebellum of the rat	77
Elisabeth Hansson and L. Rönnbäck	Receptor-mediated volume regulation in astrocytes in primary culture	85
M.-C. Tsai, J.-L. Su, M.-L. Chen, S.-Z. Fan and C.-Y. Cheng	The effect of 3,3,-dipyridylmethyl-1-phenyl-2-indolinone on the neuromuscular transmission in the rodent skeletal muscles	89
Elizabeth A. Johnson, Catherine E. Tsai, J. Lucci, Yvonne Harrison-Shahan and A. J. Azzaro	Dopamine D_2 synthesis-modulating receptors are present in the striatum of the guinea pig	95

NUMBER 2

T. Priestley	The effect of baclofen and somatostatin on neuronal activity in the rat ventromedial hypothalamic nucleus *in vitro*	103
Vimala H. Sethy and G. P. Sage	Modulation of release of acetylcholine from the striatum by a proposed excitatory amino acid antagonist U-54494A: comparison with known antagonists, diazepam and phenytoin	111
O. Inoue, K. Kobayashi, Y. Sakiyama and T. Suzuki	The effect of benzodiazepines on the binding of [^{3}H]SCH 23390 *in vivo*	115

P. Marek, C. D. Chapman and S. Howard	The effect of phencyclidine and DL-2-amino-5-phosphonovaleric acid on *N*-methyl-D-aspartic acid induced changes in extracellular concentration of dopamine and DOPAC in the rat neostriatum	123
J. D. Wildin and Barbara J. Pleuvry	Tolerance to the anticonvulsant effects of clobazam in mice	129
H. N. Bhargava, A. Gulati and N. H. Rahmani	Down-regulation of central receptors for thyrotropin-releasing hormone in kappa opiate agonist-induced abstinence in the rat	137
Diane M. Ignar, R. T. Windh and Cynthia M. Kuhn	Chronic administration of U50,488H fails to produce hypothalamo–pituitary–adrenal axis tolerance in neonatal rats	143
M. B. Assié, M. Charvéron, C. Palmier, C. Puozzo, C. Moret and M. Briley	Effects of prolonged administration of milnacipran, a new antidepressant, on receptors and monoamine uptake in the brain of the rat	149
G. A. Gudelsky and J. F. Nash	Neuroendocrinological and neurochemical effects of sigma ligands	157
J. Sirviö, P. Riekkinen Jr, T. Ekonsalo, R. Lammintausta and P. J. Riekkinen	The effects of dexmedetomidine, an alpha$_2$ agonist, on learning and memory, assessed using passive avoidance and water maze tasks in rats	163
L. D. Van de Kar, Anna M. Bonadonna, P. A. Rittenhouse, Janice E. Kerr, A. D. Levy, Lalitha Iyer, G. B. Herbert, Maria C. Alvarez Sanz, Stephanie J. Lent and Molly Carnes	Prior chronic exposure to cocaine inhibits the serotonergic stimulation of ACTH and secretion of corticosterone	169
Kathy M. O'Boyle and J. L. Waddington	Agonist and antagonist interactions with D_1 dopamine receptors: agonist-induced masking of D_1 receptors depends on intrinsic activity	177
J. S. Schneider	Effects of age on GM_1 ganglioside-induced recovery of concentrations of dopamine in the striatum in 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine-treated mice	185
F. J. Miñano, M. Vizcaino and R. D. Myers	Action of cyclosporine on fever induced in rats by intrahypothalamic injection of macrophage inflammatory protein-1 (MIP-1)	193

NUMBER 3

R. J. Prince and M. A. Simmonds	Steroid modulation of the strychnine-sensitive glycine receptor	201
B. Gao and M. G. Cutler	Effects of sub-chronic treatment with chlordiazepoxide, buspirone and the 5-HT$_3$ receptor antagonist, BRL 46470, on the social behaviour of mice	207
J.-C. Chen, Pamela W. Schnepper, A. To and L. Volicer	Neurochemical changes in the rat brain after intraventricular administration of tryptamine-4,5-dione	215
R. Invernizzi, L. Pozzi, S. Garattini and R. Samanin	Tianeptine increases the extracellular concentrations of dopamine in the nucleus accumbens by a serotonin-independent mechanism	221
G. Beauchamp, P.-A. Lavoie and R. Elie	Effect of trimipramine on depolarization-induced and Na^+–Ca^{2+} exchange-induced ^{45}calcium uptake in synaptosomes from the cortex of the rat brain	229
D. Wermelskirchen, J. Gleitz, J. Urenjak, B. Wilffert, F. Tegtmeier and Th. Peters	Flunarizine and R 56865 suppress veratridine-induced increase in oxygen consumption and uptake of $^{45}Ca^{2+}$ in rat cortical synaptosomes	235
A. Gulati and S. Rebello	Characteristics of endothelin receptors in the central nervous system of spontaneously hypertensive rats	243
J. E. Haley, A. H. Dickenson and M. Schachter	Electrophysiological evidence for a role of nitric oxide in prolonged chemical nociception in the rat	251
H. Takahashi and J. J. Buccafusco	Excitatory modulation by a spinal cholinergic system of a descending sympathoexcitatory pathway in rats	259

C. H. K. Cheng, B. Costall, M. Hamburger, K. Hostettmann, R. J. Naylor, Y. Wang and P. Jenner — Toxic effects of solstitialin A 13-acetate and cynaropicrin from *Centaurea solstitialis* L. (Asteraceae) in cell cultures of foetal rat brain 271

M. P. Mattson, B. Rychlik and B. Cheng — Degenerative and axon outgrowth-altering effects of phencyclidine in human fetal cerebral cortical cells 279

Ch. Heidbreder, M. Gewiss, S. Lallemand, B. P. Roques and Ph. De Witte — Inhibition of enkephalin metabolism and activation of mu- or delta-opioid receptors elicit opposite effects on reward and motility in the ventral mesencephalon 293

P. L. Prather, M. J. Forster and H. Lal — Learning and memory-enhancing effects of Ro 15-4513: a comparison with flumazenil 299

Preliminary Notes

T. W. Vickroy, C. J. Schneider and J. M. Hildreth — Pharmacological heterogeneity among calcium channels that subserve acetylcholine release in vertebrate forebrain 307

I. P. Stolerman, E. X. Albuquerque and H. S. Garcha — Behavioural effects of anatoxin, a potent nicotinic agonist, in rats 311

NUMBER 4

A. R. Green, R. J. De Souza, J. L. Williams, T. K. Murray and A. J. Cross — The neurotoxic effects of methamphetamine on 5-hydroxytryptamine and dopamine in brain: evidence for the protective effect of chlormethiazole 315

Emmeline Edwards, W. Kornrich, Phyllis V. Houtten and F. A. Henn — Presynaptic serotonin mechanisms in rats subjected to inescapable shock 323

L. Cervo, C. Rossi and R. Samanin — The role of serotonin and dopamine in brain in the antidepressant-like effect of clonidine in the forced swimming test 331

M. Ota, P. Dostert, T. Hamanaka, T. Nagatsu and M. Naoi — Inhibition of tryptophan hydroxylase by (*R*)- and (*S*)-1-methyl-6,7-dihydroxy-1,2,3,4-tetrahydroisoquinolines (salsolinols) 337

S. Caccia, C. Fracasso, S. Garattini, G. Guiso and S. Sarati — Effects of short- and long-term administration of fluoxetine on the monoamine content of rat brain 343

J. W. Miller, B. C. Gray and M. E. Bardgett — Characterization of cholinergic regulation of seizures by the midline thalamus 349

S. Sparenborg, L. H. Brennecke, Nancy K. Jaax and D. J. Braitman — Dizocilpine (MK-801) arrests *status epilepticus* and prevents brain damage induced by soman 357

C. L. Ehlers, W. M. Kaneko, T. L. Wall and R. I. Chaplin — Effects of dizocilpine (MK-801) and ethanol on the EEG and event-related potentials (ERPS) in rats 369

S. C. R. Lummis, S. D. Buckingham, M. L. Balk, C. W. Holyoke Jr and D. B. Sattelle — Actions of a series of bisquaternary compounds on nicotinic acetylcholine receptors in insects: ligand binding and electrophysiological studies 379

M. A. M. Prado, M. A. R. Silva, T. Moraes-Santos and M. V. Gomez — Effects of tityustoxin and ouabain on release of acetylcholine from slices of cortex from the rat brain and on the acetylcholine content of cytoplasmic and crude vesicular fractions 383

R. W. Dunn and R. Corbett — Yohimbine-induced seizures involve NMDA and GABAergic transmission 389

A. El. Tamer, J. Corey, E. Wülfert and I. Hanin — Reversible cholinergic changes induced by AF64A in rat hippocampus and possible septal compensatory effect 397

S. Maione, S. Vitagliano, L. Berrino, E. Lampa and F. Rossi — Participation of arginine vasopressin-mediated and adrenergic system-mediated mechanisms in the hypertension induced by intracerebroventricular administration of NMDA in freely moving rats 403

Paula Grammas, T. M. Kwaiser and Mary L. Caspers — Regulation of amino acid uptake into cerebral microvessels — 409

Announcement — I

NUMBER 5

H. Wang and D. G. Grahame-Smith — The effects of rubidium, caesium and quinine on 5-HT-mediated behaviour in rat and mouse—1. Rubidium — 413

H. Wang and D. G. Grahame-Smith — The effects of rubidium, caesium and quinine on 5-HT-mediated behaviour in rat and mouse—2. Caesium — 421

H. Wang and D. G. Grahame-Smith — The effects of rubidium, caesium and quinine on 5-HT-mediated behaviour in rat and mouse—3. Quinine — 425

A. H. Young, L. M. MacDonald, H. St John, H. Dick and G. M. Goodwin — The effects of corticosterone on 5-HT receptor function in rodents — 433

C. Wang, M. K. Chakrabarti, D. C. Galletly and J. G. Whitwam — Relative effects of intrathecal administration of fentanyl and midazolam on Aδ and C fibre reflexes — 439

G. Grignaschi and R. Samanin — Role of serotonin and catecholamines in brain in the feeding suppressant effect of fluoxetine — 445

Karen Bohmaker, F. Bordi and E. Meller — The effects of pertussis toxin on dopamine D_2 and serotonin 5-HT_{1A} autoreceptor-mediated inhibition of neurotransmitter synthesis: relationship to receptor reserve — 451

T. Ohmori, T. Koyama, F. Nakamura, P. Wang and I. Yamashita — Effect of phencyclidine on spontaneous and *N*-methyl-D-aspartate (NMDA)-induced efflux of dopamine from superfused slices of rat striatum — 461

M. Virgili, P. Migani, A. Contestabile and O. Barnabei — Protection from kainic acid neuropathological syndrome by NMDA receptor antagonists: effect of MK-801 and CGP 39551 on neurotransmitter and glial markers — 469

G. H. Fromm, K. Sato and M. Nakata — The action of $GABA_B$ antagonists in the trigeminal nucleus of the rat — 475

E. Scheufler, J. Urenjak, B. Osikowska-Evers, A. Beile, I. Guttmann, B. Wilffert, F. Tegtmeier and Th. Peters — Ouabain-induced changes of calcium and potassium in slices of hippocampus of the rat: comparison to hypoxia and effect of R 56865 — 481

S. W. Rabkin — The calcium antagonist diltiazem has antiarrhythmic effects which are mediated in the brain through endogenous opioids — 487

S. D. Glick, K. Rossman, N. C. Rao, I. M. Maisonneuve and J. N. Carlson — Effects of ibogaine on acute signs of morphine withdrawal in rats: independence from tremor — 497

C. A. Leech and D. B. Sattelle — Multiple conductances of neuronal nicotinic acetylcholine receptors — 501

Preliminary Notes

N. L. Daló and J. C. Piña-Crespo — Ketamine abolishes the tonic phase of the seizures evoked by sudden cooling of toad isolated spinal cords — 509

A. Svensson and Maria L. Carlsson — Injection of the competitive NMDA receptor antagonist AP-5 into the nucleus accumbens of monoamine-depleted mice induces pronounced locomotor stimulation — 513

Corrigendum — I

NUMBER 6

J. Adrien, M. H. Tissier, L. Lanfumey, S. Haj-Dahmane, T. Jolas, B. Franc and M. Hamon — Central action of 5-HT_3 receptor ligands in the regulation of sleep–wakefulness and raphe neuronal activity in the rat — 519

A. R. Sizer, G. J. Kilpatrick and M. H. T. Roberts	A post-synaptic depressant modulatory action of 5-hydroxytryptamine on excitatory amino acid responses in rat entorhinal cortex *in vitro*	531
P. K. Eide	Stimulation of 5-HT_1 receptors in the spinal cord changes substance P-induced behaviour	541
P. M. Grasby, T. Sharp, T. Allen and D. G. Grahame-Smith	The putative 5-HT_{1A} antagonist BMY 7378 blocks 8-OH-DPAT-induced changes in local cerebral glucose utilization in the conscious rat	547
R. J. Rodgers and J. K. Shepherd	Attenuation of defensive analgesia in male mice by 5-HT_3 receptor antagonists, ICS 205-930, MDL 72222, MDL 73147EF and MDL 72699	553
F. G. Boess, María-Isabel Sepúlveda, S. C. R. Lummis and I. L. Martin	5-HT_3 receptors in NG108-15 neuroblastoma × glioma cells: effect of the novel agonist 1-(*m*-chlorophenyl)-biguanide	561
Pamela S. Puttfarcken, W. E. Lyons and J. T. Coyle	Dissociation of nitric oxide generation and kainate-mediated neuronal degeneration in primary cultures of rat cerebellar granule cells	565
A. M. López-Colomé and F. Somohano	*N*-methyl-D-aspartate receptors in the retina: 3-[(±)-2-carboxypiperazin-4-yl]-propyl-1-phosphonic acid (CPP) binding studies	577
M. Mori, H. Tsushima and T. Matsuda	Antidiuretic effects of purinoceptor agonists injected into the hypothalamic paraventricular nucleus of water-loaded, ethanol-anesthetized rats	585
Z. Sarnyai, Éva Bíró, E. Babarczy, M. Vecsernyés, F. Laczi, G. Szabó, Márta Kriván, G. L. Kovács and G. Telegdy	Oxytocin modulates behavioural adaptation to repeated treatment with cocaine in rats	593
K. N. Prasad, Judith Edwards-Prasad, Susan Kentroti, C. Brodie and Antonia Vernadakis	Ayurvedic (science of life) agents induce differentiation in murine neuroblastoma cells in culture	599
Announcements		I

NUMBER 7

Commentary		
S. J. Peroutka	Phylogenetic tree analysis of G protein-coupled 5-HT receptors: implications for receptor nomenclature	609
General Papers		
Emmeline Edwards, C. R. Ashby Jr and R. Y. Wang	±-1-(2,5-Dimethoxy-4-iodophenyl)-2-aminopropane(DOI) and α-methyl-5-HT: 5-HT_2 receptor agonistic action on phosphatidylinositol metabolism in the rat fronto-cingulate and entorhinal cortex	615
M. R. Dzoljic, O. E. Ukponmwan and P. R. Saxena	5-HT_1-like receptor agonists enhance wakefulness	623
J. Yamazaki, H. Ono and T. Nagao	Stimulatory and inhibitory effects of serotonergic hallucinogens on spinal mono- and polysynaptic reflex pathways in the rat	635
K. J. Kellar, Bridget A. Hulihan-Giblin, Susan E. Mulroney, M. D. Lumpkin and C. M. Flores	Stimulation of serotonin$_{1A}$ receptors increases release of prolactin in the rat	643
J. S. McElvain and J. O. Schenk	Blockade of dopamine autoreceptors by haloperidol and the apparent dynamics of potassium-stimulated endogenous release of dopamine from and reuptake into striatal suspensions in the rat	649
A. Elverfors and H. Nissbrandt	Effects of *d*-amphetamine on dopaminergic neurotransmission; a comparison between the substantia nigra and the striatum	661
Beth Borowsky and Cynthia M. Kuhn	D_1 and D_2 dopamine receptors stimulate hypothalamo–pituitary–adrenal activity in rats	671
C. Moret and M. Briley	Effect of antidepressant drugs on monoamine synthesis in brain *in vivo*	679
J. Maj, Z. Rogóż, G. Skuza and H. Sowińska	The effect of antidepressant drugs on the locomotor hyperactivity induced by MK-801, a non-competitive NMDA receptor antagonist	685

D. J. Sanger and B. Zivkovic	Differential development of tolerance to the depressant effects of benzodiazepine and non-benzodiazepine agonists at the omega (BZ) modulatory sites of $GABA_A$ receptors	693
T. Inada, K. Polk, C. Purser, A. Hume, B. Hoskins, I. K. Ho and R. W. Rockhold	Behavioral and neurochemical effects of continuous infusion of cocaine in rats	701
Preliminary Notes		
C. M. G. Aragon and Z. Amit	The effect of 3-amino-1,2,4-triazole on voluntary ethanol consumption: evidence for brain catalase involvement in the mechanism of action	709
U. Wüllner, A. Kupsch, G. Arnold, P. Renner, C. Scheid, R. Scheid, W. Oertel and T. Klockgether	The competitive NMDA antagonist CGP40.116 enhances L-DOPA response in MPTP-treated marmosets	713

NUMBER 8

B. J. Key and C. C. Wigfield	Changes in the tail surface temperature of the rat following injection of 5-hydroxytryptamine into the ventrolateral medulla	717
G. M. Williams, Deborah L. Smith and D. J. Smith	$5\text{-}HT_3$ receptors are not involved in the modulation of the K^+-evoked release of [^{3}H]5-HT from spinal cord synaptosomes of rat	725
P. Bhandari, S. Bingham and P. L. R. Andrews	The neuropharmacology of loperamide-induced emesis in the ferret: the role of the area postrema, vagus, opiate and $5\text{-}HT_3$ receptors	735
B. Gao and M. G. Cutler	Effects of acute administration of the $5\text{-}HT_3$ receptor antagonist, BRL 46470A, on the behaviour of mice in a two compartment light–dark box and during social interactions in their home cage and an unfamiliar neutral cage	743
B. Gao and M. G. Cutler	Effects of acute and subchronic administration of propranolol on the social behaviour of mice; an ethopharmacological study	749
G. S. Mason and P. J. Elliott	Behavioural consequences following infusion of selective neurokinin agonists into the median raphe nucleus of the rat	757
G. Calapai, F. Squadrito, D. Altavilla, B. Zingarelli, G. M. Campo, M. Cilia and A. P. Caputi	Evidence that nitric oxide modulates drinking behaviour	761
P. Rauhala, R. K. Tuominen, P. Tuomainen, M. Toivonen, S. A. Borisenko and P. T. Männistö	Development of tolerance to the hormonal effects of morphine without changes in the aminergic functions in the brain of the rat	765
Helen C. Jackson, I. J. Griffin and D. J. Nutt	Endogenous opioids may be involved in idazoxan-induced food intake	771
P. Paakkari, I. Paakkari, G. Feuerstein and A.-L. Sirén	Evidence for differential opioid μ_1- and μ_2-receptor-mediated regulation of heart rate in the conscious rat	777
M. Malcangio, P. Malmberg-Aiello, A. Giotti, C. Ghelardini and A. Bartolini	Desensitization of $GABA_B$ receptors and antagonism by CGP 35348, prevent bicuculline- and picrotoxin-induced antinociception	783
A. M. Mazarati and G. Telegdy	Effects of somatostatin and anti-somatostatin serum on picrotoxin-kindled seizures	793
A. Fleischmann, Anne M. Etgen and M. H. Makman	Estradiol plus progesterone promote glutamate-induced release of γ-aminobutyric acid from preoptic area synaptosomes	799
W. Freas, R. Llave, J. L. Hart, Y. Kobayashi, J. Nagel and S. M. Muldoon	Neurovascular effects of reactive oxygen intermediates produced by photoradiation	809
S. Hafizi, P. Palij and J. A. Stamford	Activity of two primary human metabolites of nomifensine on stimulated efflux and uptake of dopamine in the striatum: *in vitro* voltammetric data in slices of rat brain	817

NUMBER 9

Announcement iii

G. Bot, L. A. Chahl, P. J. Brent and P. A. Johnston — Effects of intracerebroventricularly administered mu-, delta- and kappa-opioid agonists on locomotor activity of the guinea pig and the pharmacology of the locomotor response to U50,488H 825

A. A. Baumeister, A. L. Richard, L. Richmond-Landeche, M. J. Hurry and Angela M. Waguespack — Further studies of the role of opioid receptors in the nigra in the morphine withdrawal syndrome 835

M. Ukai, T. Kamiya, T. Toyoshi and T. Kameyama — Systemic administration of dynorphin A(1-13) markedly inhibits different behavioural responses induced by cocaine in the mouse 843

L. Tive, K. Ginsberg, C. G. Pick and G. W. Pasternak — Kappa$_3$ receptors and levorphanol-induced analgesia 851

E. Badoer and J. Chalmers — Interactions of endogenous opioid and excitatory amino acid inputs to the caudal ventrolateral medulla of the rat 857

R. F. Parrott, I. S. Ebenezer and M. L. Forsling — The effects of intravenous administration of cholecystokinin on feeding behaviour and release of pituitary hormones in pigs are not mediated by serotonergic (5-HT$_3$) receptors 863

K. Hashimoto and T. Goromaru — 4-Bromo-6-nitroquipazine: a new ligand for studying 5-hydroxytryptamine uptake sites *in vivo* 869

S. Caccia, S. Sarati, M. Anelli and S. Garattini — Effect of escalating doses of *d*-fenfluramine on the content of indoles in brain 875

Ursula Scheffel, J. R. Lever, M. Stathis and G. A. Ricaurte — Repeated administration of MDMA causes transient down-regulation of serotonin 5-HT$_2$ receptors 881

G. M. Gilad, V. H. Gilad and R. J. Wyatt — Polyamines modulate the binding of GABA$_A$–benzodiazepine receptor ligands in membranes from the rat forebrain 895

R. J. Bridges, C. G. Hatalski, S. N. Shim, B. J. Cummings, V. Vijayan, A. Kundi and C. W. Cotman — Gliotoxic actions of excitatory amino acids 899

Cecilia J. Hillard — Nicotine-induced depolarization of cerebral cortical synaptosomes is dependent upon sodium 909

M. Ohno, T. Yamamoto and S. Watanabe — Involvement of cholinergic mechanisms in impairment of working memory in rats following basolateral amygdaloid lesions 915

Y. Hara, A. Ally and S. Murayama — Central cardiovascular effects of physostigmine in anesthetized cats 923

B. Z. Chen and F. A. O. Mendelsohn — Effect of acute and chronic administration of ceronapril on angiotensin converting enzyme in plasma, kidney, lung, brain regions and cerebrospinal fluid of rats 929

P. C. Braga, V. Sibilia, E. Guidobono, A. Pecile and C. Netti — Electrophysiological correlates for antinociceptive effects of histamine after intracerebral administration to the rat 937

M.-C. Tsai, J.-L. Su, M.-L. Chen, S.-Z. Fan and C.-Y. Cheng — The effect of 3,3-di-pyridyl-methyl-1-phenyl-2-indolinone on the nerve terminal currents of mouse skeletal muscles 943

M. Tanabe, T. Kaneko, T. Tonohiro and N. Iwata — Mechanisms of spinal reflex depressant effects of CS-722, a newly synthesized centrally acting muscle relaxant, in spinal rats 949

H. Hayakawa, M. Shimizu and S. Yamawaki — The effects of electroconvulsive shock or imipramine on subtypes of α_1-adrenoceptors in the frontal cortex of the rat 955

L. T. Meltzer, C. L. Christoffersen, K. A. Serpa, T. A. Pugsley, A. Razmpour and T. G. Heffner — Lack of involvement of haloperidol-sensitive sigma binding sites in modulation of dopamine neuronal activity and induction of dystonias by antipsychotic drugs 961

NUMBER 10

Announcement iii

Lynda Uphouse, Marjay Caldarola-Pastuszka and Sylvia Montanez — Intracerebral actions of the 5-HT_{1A} agonists, 8-OH-DPAT and buspirone and of the 5-HT_{1A} partial agonist/antagonist, NAN-190, on female sexual behavior 969

Q. Li, P. A. Rittenhouse, A. D. Levy, Maria C. Alvarez Sanz and L. D. Van de Kar — Neuroendocrine responses to the serotonin$_2$ agonist DOI are differentially modified by three 5-HT_{1A} agonists 983

G. Tunnicliff, J. J. Brokaw, J. A. Hausz, G. K. Matheson and G. W. White — Influence of repeated treatment with buspirone on central 5-hydroxytryptamine and dopamine synthesis 991

R. W. Fuller, H. D. Snoddy, J. H. Krushinski and D. W. Robertson — Comparison of norfluoxetine enantiomers as serotonin uptake inhibitors *in vivo* 997

H. A. Schmid and S. Vijayaraghavan — Inhibition of the nicotinic acetylcholine response by serotonergic and muscarinic agents in chick ciliary ganglion neurones 1001

P. K. Banerjee and O. C. Snead III — Involvement of excitatory amino acid mechanisms in γ-hydroxybutyrate model of generalized absence seizures in rats 1009

E. Urbańska, M. Dziki, S. J. Czuczwar, Z. Kleinrok and W. A. Turski — Antiparkinsonian drugs memantine and trihexyphenidyl potentiate the anticonvulsant activity of valproate against maximal electroshock-induced seizures 1021

R. W. Fuller, Susan K. Hemrick-Luecke and P. L. Ornstein — Protection against amphetamine-induced neurotoxicity toward striatal dopamine neurons in rodents by LY274614, an excitatory amino acid antagonist 1027

L. P. Dwoskin, A. L. Jewell, S. T. Buxton and J. M. Carney — Phencyclidine-induced desensitization of striatal dopamine release 1033

Christine L. Miller, Paula C. Bickford, Vera Luntz-Leybman, L. E. Adler, G. A. Gerhardt and R. Freedman — Phencyclidine and auditory sensory gating in the hippocampus of the rat 1041

R. Takeda and A. Haji — Effects of halothane on membrane potential and discharge activity in pairs of bulbar respiratory neurons of decerebrate cats 1049

M. Tanabe, T. Kaneko, T. Tonohiro and N. Iwata — The pharmacological properties of CS-722, a newly synthesized centrally acting muscle relaxant 1059

Y. Morio, T. Yakushiji, Y. Morimoto, T. Fukuda and M. Setoguchi — Characterization of the transcallosal response in aged rats and its susceptibility to nootropic drugs 1067

Preliminary Notes

Deborah S. Kreiss and Irwin Lucki — Desensitization of 5-HT_{1A} autoreceptors by chronic administration of 8-OH-DPAT 1073

Z. Zhao, W. E. Code and L. Hertz — Dexmedetomidine, a potent and highly specific alpha$_2$ agonist, evokes cytosolic calcium surge in astrocytes but not in neurons 1077

NUMBER 11

Announcement iii
